A HISTORY IN MINIATURE

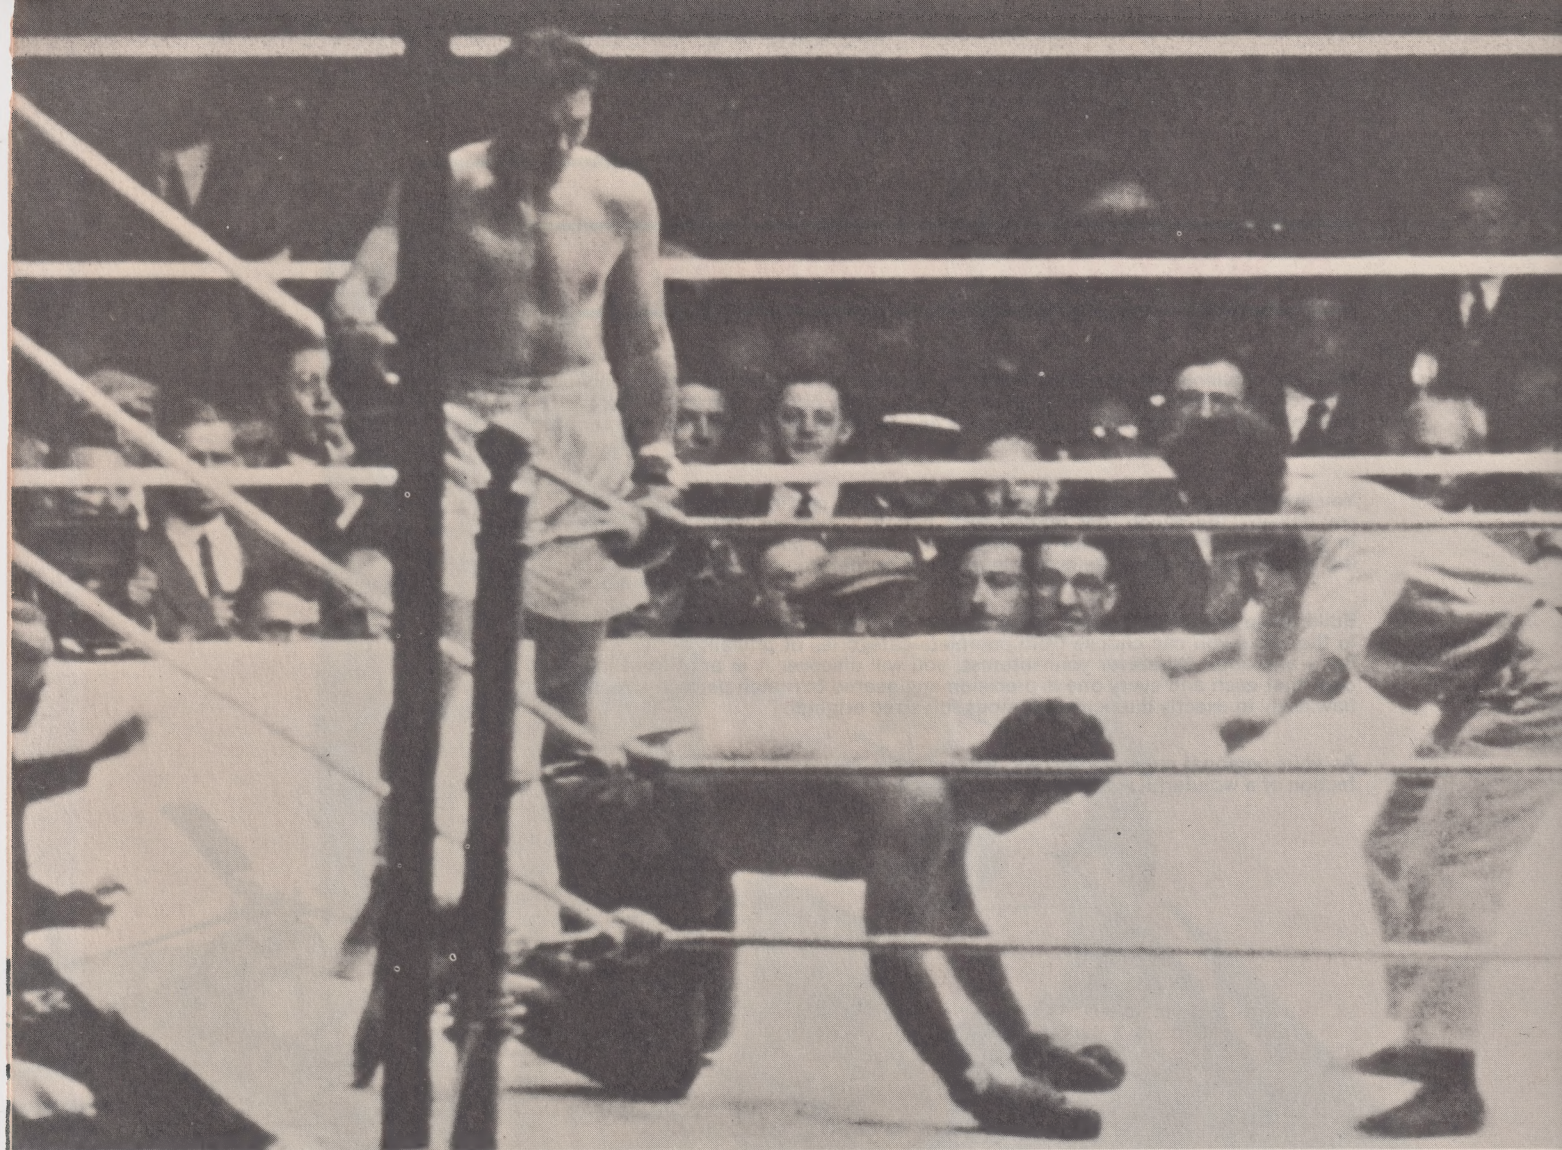

Meet the challenge of recreating history's epic-making events while experiencing the thrill of modeling them with your own hands. With Aurora kits you will travel the road of high adventure through the ages and be there when the great moment took place.

You are there as Washington crosses the Delaware...sitting ringside as Jack Dempsey delivers the punch that made sports history...witnessing knights resplendent in gleaming armor depart for the impending battle of plumes and armor...watching heroic figures from the comic leap to action before your very eyes.

Build these scenes and many, many more! From the largest collection of hobby kits in the world you can choose from complete categories of brilliant designed boats—car—airplanes. Whatever your interest, you will discover it in an Aurora kit, confident that each and every one is precision engineered to match perfectly, reproduced flawlessly to exactly duplicate a famous full-sized original.
